Show #9.06 featuring Froth Au Lait

Cablecast: 11/29/2006-12/27/2006

Froth Au Lait, launched in September 2000, was founded to develop a solution to the complexities involved in preparing specialty coffees such as cappuccinos and lattes. While specialty coffee consumption is growing rapidly in America and many parts of the world, surveys indicate that most people find the preparation of the froth topping to be difficult, time consuming, and at times, unsafe. The solution was almost two years in the making. The Froth Au Lait unit is designed to be a companion to a coffee or espresso maker. It makes rich, long lasting hot milk froth for specialty coffee drinks, hot chocolate, dessert toppings and much more!
